

Return Policy

Version 1.0 · 14 September 2026

By ticking the box at checkout you expressly agree that delivery of your download begins immediately, and you acknowledge that you therefore lose your 14-day right of withdrawal as soon as it begins.

Mazevos is a one-time purchase of a downloadable product. You receive the complete source code the moment you pay, so sales are final and I do not offer refunds for a change of mind.

If you are a consumer in the EU, EEA or UK, you have a statutory 14-day right of withdrawal. It stops applying to a digital download only once you have given the agreement and the acknowledgement in the first line above, and your download has started. Nothing here removes a right the law gives you.

If the product does not work as described, message me through the store or in the private Discord server you are invited to after checkout. I will help you get it running, and if I cannot, I will refund you in full. That is a promise about the product, not a trial period.
